The military buildup in the Ovambo tribal area — split by the Namibia-Angola frontier — ap-pears to be tied to the internal elecoons in Namibia that South Africa will hold Dec. 4-8. The move seemed designed to strengthen South Africa politically and militarily in the key Ovambo region, where African guerrillas have fooght a low-level insurgency for nearly a decade.

Norman Rockwell

Said Heart Attack Killer

By Lois Timnick

ST. LOUIS, Nov. 9 - The killer factor in heart attacks is stress, not clogged arteries alone, a Baylor University neurophysiologist said here yesterday. And it may be that stress by itself can be sufficient to trigger lethal rhythms in healthy

The idea is not new; the mind's power over the autonomic nervous system is evident in primitive voodoo curse deaths, and the link between stress, heart attack and "sud-den death" has long been suspected. But now scientists say that they bave biological proof of the brain's contribution, and some clues as to bow it exerts its effects.

The next step, James Skinner said at the annual meeting of the Society for Neuroscience, is the development of an "anti-stress pill" for persons considered risks for heart attacks: those with known coronary heart disease, high blood pressure or elevated cholesterol levels, a family history of heart problems, or those who are heavy smokers. Meanwhile, he cautioned that such persons should avoid stressful life changes wherever possible. Current tranquilizers have harmful side effects, he said, and the myriad relaxation and stress-re-

duction techniques that abound (Continued on Page 2, Col. 7)

Tax Revolt Is Loud, Not Clear; Voters Prefer Ceilings to Cuts

WASHINGTON, Nov. 9 (WP) - The highly touted taxpayers' rebellion did not happen — or at least not quite the way proponents of tax rollbacks such as California's Proposition 13 bad expected.

Results of Tuesday's election show that although

measures to limit taxes and spending won in twice as many states as they lost, most of the winners were not outright tax reductions, but proposals to slow the rate

of government growth.

"People showed they want a slowdown on taxes and spending, but they don't want to go through the windshield," John Shannon, assistant director of the federal Advisory Commission on Intergovernmental Relations, said yesterday. "The moderate plans were generally OK'd, but most of the more radical ones were rejected."

Proposition 13, which Californians approved in June, "didn't bave as big a ripple effect as expected," said Charles Crawford, director of the Nntional Taxpayers Union.

Still, the tax referenda did have symbolic impact in that candidates from both parties declared their allegiance to frugal policies throughout the recent cam-

Bernard Hillenbrand, executive director of the National Association of Counties, said yesterday that "the net result [of the Tuesday vote] for county government will be that there will be no new programs. Emphasis will be on maintenance of existing

programs."

To survive inflation and spending restrictions, he added, "county government will have to increase productivity and explore more cost-saving management activities such as contracts with other jurisdictions

The vote on tax and spending issues in Michigan is a prime example of what bappened elsewhere. Voters there rejected a stringent proposal that would have slashed property taxes by 43 percent and another measure that would have removed property-tax support from educatioo. Instead, they approved a milder measure to hold state taxes to the current 9.5 percent of state personal income, to tie property-tax increases to the level of inflation, and to require voter approval of all new tax increases.

Mr. Shannon noted that since 1953 state and local taxes have risen from 7.4 percent of personal jocome to 12.8 percent in fiscal 1977, "It's that trend that people want to stop," he said. Like Michigan's new law, several of the other measures that passed will the taxes to their current portion of personal income.

Tax or spending limits also won in Alabama, Ari-(Continued on Page 2, Col. 6)

Depends On Opponent's Strength

Some Survive Scandals to Re-Election

By Paul Houston

WASHINGTON, Nov. 9 — Indicated Rep. Joshua Eilberg, D-Pa, lost decisively in Tuesday's electronic decision of the Democratic decision o Flood, D-Pa., won handily. And so did Rep. Charles Diggs Jr., D-Mich., coovicted of mail fraud and payroll kickbacks.

ence-buying scandal last month, Rep . John McFall, D-Calif., was cut down by the voters Tuesday, However, Reps. Charles Wilson, D-Calif., and Edward Roybal, D-Calif., were easily re-elected, despite having received the same reprimand as Rep. McFall.

In a year during which tighter ethics rules and more aggressive prosecutors produced a record crop congressional scandals (and, ironically, probably one of the cleanest Congresses in history overall), what caused the varied treatment by voters?

The answer is simple, several political analysts agreed vesterday.

Anybody tinged with scandal who had n strong opponent lost. Those with weak opponents won for the time being. Two years dia that was not unanimously hence, the wioners probably can expect strong opposition if they run for re-election.

'Severe Primary'

of confidence in the lower house.

ognized as the guardian of the con-

stitutional order. Regional govern-ments are sanctioned, but the cen-

finger-touching extremities of the seats, or call fresh elections. After far left and the far right: seats, or call fresh elections. After just holding the first congress of his just holding the first congress of his governing Union of the Democratic Center, he is keeping the patchwork centrist party — and the country — guessing. The second-ranking Socialists are pressing for elections, which they think they might win; the Communists are reluctant and could give the premier the parliamentary margin he needs

> Hardly a day passes without some new act of violence in the roiled Basque provinces, where the terrorist group ETA has mounted an offensive aimed at derailing the constitution. In the last two months alone, ETA gunmen, with chilling impunity, have assassinated 22 people — 14 of them policemen and one a navy captain. One of the latest victims was a Basque industrialist who had refused to pay ETA's

revolutionary taxes. The group clearly hopes to fuse its separatist aspirations with disaffection among Basques who feel that the constitution does not grant them sufficient nutonomy. But the where he holds about 162 of 350 terrorists' latest attacks seem to exonerate ordinary Spaniards, who

alist Party, which is urging its followers to abstain in the referendum, staged a large demonstration in Bilbao last month to decounce violence.

General's Warning

"The peace of Spain could be in danger if certain groups, which want to wound the armed forces and hring them out of the barracks, are not halted," warned Lt. Gen. Manuel Gutierrez Mellado, the defense minister, at a news confer-ence last week. "I am very tranquil hecause in Spain there will be no coup d'etat, now or in the future. but there are some people who seem sad there is no coup."

Spaniards so far have shown a remarkable ability to absorb the aftersbocks of violence — there have been more political killings in Spain this year than in Italy - and they seem aided in this steadiness by a conviction that some "outside hand" is manipulating terrorists groups on the far left and far right. Everyone from the KGB to the CIA is a candidate; true or false, this belief assuages and seems to

Adolfo Suarez

consider themselves objects, not actors, in this bloody drama. A touch of humor helps. After policemen papered Madrid's walls with wanted posters for terrorists from a shady group called GRA-PO, Francisco Umhral, a witty columnist, likened the capital to

Churchill Loses Tory Post Opposing Rhodesia Ban

ston Churchill, grandson of Britain's World War II prime minister, today lost his job as Conservative Party defense spokesman in a dispute over Rhodesia that split the

Tories in the House of Commons. Mr. Churchill, 38, was sacked by his party leader, Margaret Thatcher, for joining a revolt against the party line on economic sanctions against Rhodesia. Instead of abstaining as the party floor managers had demanded, he voted against a Labor government motion to renew the sanctions for

The government won the vote yesterday, 320 to 121.

The rebels — 114 Conservatives and 7 Ulster Unionists — represented the biggest revolt against Mrs. Thatcher's leadership since she took over from Edward Heath in 1975. There are 284 Conservauves in the 635-member House.

As a member of the opposition front bench, it was incumbent on Mr. Churchill to follow voting

Another Tory front-bencher who rebelled was John Biggs-Davison, spokesman on Northern Ireland. He resigned minutes after the vote.

Both men keep their parliamen-tary seats but they will have to withdraw to the back benches on the opposition side of the House of

Commons chamber. Mr. Churchill and the rebellious Tories want the government to end sanctions against Rhodesia and switch support from the nationalist guerrillas to the black-white transitional administration led by lan

Smith and African moderates.
The United Nations-endorsed sanctions ban trade and currency dealing with Rhodesia. The Tory official line is to criticize British-U.S. policy supporting the guerril-las but to leave sanctions as they

The reason is that Mr. Smith committed rebellion when he de-

in 1965. He did so in protest of British insistence on giving Africans a power-sharing role

Explaining why he had defied Mrs. Thatcher's directive, Mr. Churchill said, "For the first time we were being asked to impose sanctions against a multiracial government in Rhodesia committed to majority rule, and that is a wholly new situation. Last year it was a question of a white majority government that was committed for the time being to hanging onto power. It is a different situation

Spain Experiment Moves Toward 'Real' Politics

(Continued from Page 1) San Antonio in the days of the San Antonio in the days or the Wild West. But he complained that no rewards were being offered. "I think that anything that ends our democratic "Western" is a good thing, but now that the price of everything is going up, why are terrorists gratis?"

"I does name to look at the fares."

"I don't want to look at the faces oo the posters for fear of running into one of those terrorists in the Ritz," continued Mr. Umbral, suggesting slyly that big money might be connected to terrorist violence.
"If I run into one of those terrorists in the Palace Hotel bar or a bank's board room, what am I supposed to do? Follow him? Get him in a leghold? Write about him in this col-

umn? Ask for his autograph?" The reported death last month of Ramon Mercader, the Spanish Communist who murdered Leon Trotsky in 1940, has stirred faint, guilty murmurs on the Spanish left, and a ootable silence among embarrassed Spanish Communists.

cial organ of the party, nor La Calle, a Communist-staffed weekly, has reported or commented on Mercader, who is said to have died on Oct. 18 of bone cancer in a Havana hospital. He was 65 years old.

The shadowy Mercader, recruited by Stalin's intelligence agency to murder the legendary Bolshevik, is an awkward legacy for Spanish Communists, who today pride themselves on their independence from Soviet dictates.

Bicyclists in Madrid **Protest Car Pollution**

For more than three hours the demonstrators pedaled slowly unarrassed Spanish Communists.

Neither Mundo Obrero, the offitraffic to other areas of the city. Germanys Observe Start of Rampage Against Jews By Michael Getler

COLOGNE, Nov. 9 (WP) - Forty years ago tomorrow, Germany's synagogues were in flames. Glass from the shattered windows of thousands of Jewish-owned shops littered the streets of every city.

The glass lent a gruesome yet poetic name to the scene - Kris-tallnacht or Crystal Night.

The events that began at 3 a.m., Nov. 10, 1938, marked the first nationwide orgy of violent, officially inspired anti-Semitism in what was then Hitler's Germany. Yet as bad as it was that night, it was only a harbinger of what lay in store for most of Germany's 700,000 Jews and millions of others elsewhere in

Europe.
This is a day of remembrance for Germany's political and religious leaders, and today Chancellor Helmut Schmidt, speaking at a new synagogue here on the site of one that was burned in 1938, said that 40 years later there are still oo words to express fully the shame and bitterness or to explain such a

catastrophe.

The chancellor called the Crystal Night "a station on the road to hell" and said that the German people could only ask forgiveness. Germany had made a good begin-ning in the post-war years, he said, building what he called the most liberal society in the country's his-tory and one in which the vast majority of people had learned the lessons of the past.

Lingering Bitterness

Yet even as the chancellor spoke, there were signs that the disease and the bitterness, however isolated in present-day West Germany, still

In the town of Bredstedt, in oorthern Germany, walls were found this morning sprayed with red and white paint spelling out "Juden Raus, Deutschland Erwache" — Jews Out, Germany

Outside the synagogue in Cologne, a band of about 60 French Jews demanded prosecution of a re-tired postal cierk, Kurt Lischka, 68, a former deputy Gestapo chief in Paris who has been living in Col-ogne for many years. He has been under investigation for Nazi crimes

s expected soon. West German television has been airing numerous programs on Crystal Night, with heavy use of documentary film. Tonight, one program showed an emaciated Jewish family getting out of a farmer's cart and being led into a closed room to which house were hooked from the which hoses were hooked from the exhaust pipe of a pre-war Volks-

hy German authorities, and a trial

Though the Bonn government is confronting the grim anniversary with candor and openness, however painful, the observance is at a politically difficult time Germany's lawmakers are in the midst of an emotional debate about whether to extend a 30-year statute of limitations on Nazi war crimes of murder or to let that statute expire and rule out any new prosecutions beyond those already under way. The stat-ute expires on Dec. 31, 1979.

Today, Mr. Schmidt said that the government would "soon oeed the advice of our Jewish citizens . and our friends in Israel and neigh-boring countries" in what he called "a difficult decision in which important moral principles may be in conflict. We pray that our con-science will let us decide correctly," the chancellor said.

'Today's Germans," Mr. Schmidt said, "are mostly innocent"— more than two-thirds of them either born after the war or children during the war. Yet we have to carry the political inheritance of the guilty and draw the consequences. That is our responsi-bility. But we ask those Jews in the world and our neighbors not to measure our second German de-mocracy by the handful of mistaken extremists and terrorists who, as

Hitler's Official Anti-Semitism Begun 40 Years Ago

There are only 27,000 Jews left in West Germany, in a population of 68 million, and Mr. Schmidt said that the murder or deportation of the Jews was not only a ghastly crime hut that "our people were robbed of sources of creative spirit which to this day have not been re-placed and which are irreplace-

Indictments, Convictions Did Not Stop Re-Election

(Continued from Page 1) was asked at a news conference yesterday how he felt about the reelection of coovicted felons, such as Rep. Diggs, or indicted congress-

men such as Rep. Eilberg.
"I don't know that, in a free country, there is anything much you can do about it," he replied, "If somebody has been convicted and the voters want to re-elect the per-

son — that's happened a few times in our history."

Rep. Diegs was convicted last month on 29 counts of mail fraud and of diverting more than \$60,000 of his congressional employees' salaries to pay his personal bills. He relinquished his chairmanship of the House's District of Columbia committee after his conviction but has said he expects to resume the post in the next Congress. It is considered doubtful, however, that he will be re-elected by the House Democratic Caucus.

Rep. Eilberg was indicted on charges of taking money for his help in arranging a \$14.5 million federal grant to a Philadelphia hosthe election by the admission that he urged Presideot Carter to fire David Marston, a Republican U.S. attorney. At the time, Mr. Marstoo was investigating Rep. Eilberg in the hospital case, though Rep. Eil-berg claims he did not know that.

Rep. Eilberg lost to GOP state Sen. Charles Dougherty of Phila-

Rep. McFall was reprimanded after being charged by the House Ethics Committee with misusing \$3,000 from Korean rice dealer Tongsun Park. He was defeated by Republican Norman Shumway.

"The Marston affair brought out an extremely strong Republican challenger who had a record of winning in a Democratic district as a Republican," a political analyst said. "McFall was in a drawn-out scandal. And both McFall and Eilberg were long-term incumbents who had not had a serious race in the 1970s and, as such, were oot

Putting aside the predictable about the results of Tuesday's ing was the eagerness the voowed to entrust the governm to new hands.

Entering Class

New faces were chosen in 20 the 35 Senate races and 20 of the governorships decided this ye exceeding the turnover in any ! vious election this decade. The oew House members comprise largest entering class in the dec-except for the Watergate election 1974.

The GOP gubernatorial victor - particularly in what is now a ; id band of Republican-control states from Pennsylvania west Iowa and Minnesota - w viewed by politicians as particully important for 1980 presiden

To the extent that there was ideological trend in Tuesday's v ing, it seemed most clear in nate. The five liberal Democr who went down to defeat - S. McIntyre and Sen. William Hat way (Maine), Sen. Floyd Hasi (Colo.), Sen. Dick Clark (Iowa) a en. Wendell Andersoo (Minn.) had comprised the core of the lib al strength on both foreign pol and domestic welfare issues.

Their defeat increased the idlogical isolation of Sen. Edw. Kennedy, D-Mass., who had ca paigned for all of them.

Stress, Not Artery Block, Said Heart Attack Killer

(Continued from Page 1) have not been shown to have last-

ing effects. Mr. Skinner said his that Houston laboratory blocked the coro-

nary arteries of a group of pigs, the animal whose cardiovascular system most resembles man's. Some of the pigs had been subjected to physical or psychological stress such as being placed in unfamiliar tric shocks to the skin.

The animals not under stress did not die, however, even when the major blood supply to their heart

was blocked.

"We found that the psychological factor was necessary for the occlusion [blockage] of the coronary artery to produce ventricular fibrillation, the death-causing compo-nent of heart attacks," he said. Ventricular fibrillation involves rapid, irregular contractions of the beart muscle, which should have rhythmic contractions to enable i to normally pump blood to the brain and other parts of the body.

"It may be that brain states alone can be sufficient cause of the initiation of ventricular fibrillation without occlusion," he said, noting that several other studies indicate that psychological stress or direct electrical stimulation of the brain can produce these aberrant

Shock Warnings

Mr. Skinner then conditioned another group of pigs to respond to tones that warned of a coming physical shock, and mapped the path of this electrical response in the brain. Certain cells in the fron-tal cortex were found to send axons, or fiber impulses, back through the hypothalamus to the hrain stem, near the centers that regulate the cardiovascular system.

U.S. Presses Unesco Case

(Continued from Page 1) flow of news from the industrial-

ized world, specifically via the Western oews agencies, to developing nations.
The U.S. delegation has

launched diplomatic efforts to shelve, postpone or at least water down any draft declaration, and U.S. officials said that they are optimistic that some sort of acceptable compromise can be secured. However, the U.S. delegation's

approach has confused and frustrated some delegates from Western Europe, including France, Italy and West Germany, and some from developing countries.

"The negotiating is a mess, and everyone knows it's a mess," a Western European diplomat said. "No one seems quite sure who really is negotiating for the Americans what their real objective here is. If their negotiating tactic is to confuse, it's working," he added.

Confusion Affirmed

John Reinhardt, head of the U.S. delegation and of the International Communications Agency, declined to comment on the charges, except to say that "if they say they are coofused, perhaps they are."

By blocking this pathway with tip, Dath cooling devices called cryoprob he was able to prevent he rhythm disturbance in the anima. "We reasoned that if we block the functioning of this brain s

tem, we could prevent ventricu fibrillation even though the anin was still stressed," he said. "Wi this means is that having a blo clot in a coronary artery does r cause you to die. A psychologic stress factor oceds to be present." ... Mr. Skinner said his laborate.

was now exploring the chemic bases of these electrical respons and would attempt to block the.

chemicals with drugs.
"If we can develop a chemical i tervention in the hrain similar that of our physical blockade," said, "then we may be able to pr vent heart attack and death by the use of drugs."

MIT President Sees Universities Tangled in Federal Red Tape

WASHINGTON, Nov. 9 (AP) — The president of a leading university said today that relations between the federal government and the academic community have deteriorated to the point that the effectiveness of the major U.S. research institutions is threat-

Dr. Jerome Wiesner, president of the Massachusetts Institute of Technology, told the annual meeting of the National Council of University Research Administrators that the problem stemmed from too much government regulation and too little federal re-

The result has been a dulling of the cutting edge of university research that helped bring the nation to world pre-eminence in science and technology, he said

Dr. Wiesner said a barrage of government regulations and book-keeping requirements are bogging down the universities and diverting time and money that should be spent on research. What we need, and what the country now needs, is regulation of regulation,"

Millions in Business Loans Lost, a U.S. Agency Says

plies.
The \$3.5 million in missing ad-WASHINGTON, Nov. 9 (NYT)

– Millions of dollars in funds advanced by the Small Business Ad-ministration to businesses owned ministration to businesses owned by members of minority groups in New York and other cities have been squandered, siphoned off and lost through the agency's misman-agement in the last three years, ac-cording to a secret investigation just completed by the agency. are staggering."

At least \$3.5 million in advances to 35 concerns in New York is missing, the report said, and up to \$50 million in U.S. funds may be in eopardy nationally.

By Terence Smith

In one of the New York cases, an unidentified contractor apparently used about \$200,000 of the agency's funds to buy a thoroughbred acehorse that later died of a cold. The investigators learned about it when the contractor suggested selling some of the borses in his stable to pay back \$1.1 million in ad-vanced funds.

The names of at least five conractors who are members of mi-nority groups in New York have been referred to the Justice Depart-ment in the last few weeks for criminal prosecution, and others are expected shortly, U.S. officials said. They declined to name any of the businesses because the investigation is continuing.

Alarmed by the apparent scope of the scandal, Vernon Weaver, bead of the Small Business Administration, met privately yesterday with President Carter to brief him on the details and get authorization to hire additional investigators.

Carter Assurances

Mr. Weaver said later that the president told him to get to the bot-tom of the scandal and assured him be would have whatever help he

The Carter administration is anxious to clear the agency's name because the president has commit-ted himself to expanding the loans the agency makes to minority-owned businesses by 50 percent by the fiscal year 1980. Mr. Carter also bas called for a doubling of federal procurement from minority-owned businesses, much of which he facili-tated by the Small Business Admin tated by the Small Business Admin-

istration's program.

Throughout the United States, about \$2.8 billion has been advanced to minority businesses since the program began 10 years ago, \$2 billion of it in the last four years. In New York, such businesses bave received \$283 million in advances in the last four years.

"This thing is at least as messy as the General Services Administra-tion," an official said, referring to the investigation in which buge kickbacks and fraud have been uncovered in the agency responsible

for government buildings and sup-

vances discovered so far in New York is "only a fraction of what we expect to find," another official said. "The possibilities of fraud in more than \$2 billion in contracts

The Small Business Administration's investigation, which was turned over to Mr. Weaver last week, grew out of an earlier inquiry in which it was discovered that blacks and other minorities were serving as "fronts" for white busi-nessmen in obtaining special U.S.

loans.

Aleried by irregularities discovered in the New York-New Jersey regional office in July, investigators reviewed 54 advance payments made under the minority program of the Small Business Act.

The program, begun in 1968 after the inner-city riots of the previous year, enables companies owned by blacks. Hispanies and members

by hlacks. Hispanics and members of other minority groups to obtain government contracts without competitive bidding for a wide variety of services, ranging from janitorial and food services at military bases to architectural and computer ser-

vices in government offices.

The Small Business Administration advances the companies money they need to fulfill the contract on the strict understanding that it will be paid back when they are will be paid back when they are

Carter Issues Standards for New Judgeships

WASHINGTON, Nov. 9 (WP) President Carter issued standards yesterday for choosing 152 new lederal judges on the basis of merit, the Los Angeles Times reported.

Attorney General Griffin Bell, discussing the standards with reporters, indicated that be would undertake the standards.

undertake a major effort to persuade more senators to use a judicial selection commission in recommending federal district judges.

In creating the 152 trial and ap-pellate judgeships, an unprecedented 33 percent increase in the feder-al judiciary, Congress directed in the 1978 Omnibus Judgeship Act the issuance of the selection guide-

The standards range from requir-ing the nominee to have a reputa-tion for "integrity, good character and common sense," to demon-strating a commitment to equal jus-tice under law and outstanding legal ability and competence as well as willingness to manage compli-cated judicial proceedings.

In the SBA's Minority Aid Program

Money Was Squandered

"In fact," he added, "we found that in many cases the money was squandered, wasted, misappropriated or simply lost." He said that, of the \$137 million that has been advanced in this fashion in the last 10 years, as much as \$50 million is outstanding and may be unrecover-

Late Returns In Races in S.D.,

WASHINGTON, Nov. 9 (IHT)
- Republican John Warner finished in front but stopped short of claiming victory in Tuesday's Virginia U.S. Senate race. The results will not be official until Nov. 27.

Virginia, Illinois

Although a complete unofficial tabulation showed Mr. Warner defeating Democrat Andrew Miller by 4,512 votes, Mr. Miller refused concede. If the winning margin is less than one percent — as in the case of this unofficial tally — the runner-up can, after the official tal-

ly is posted on Nov. 27, request a recount by Dec. 7. Area newspapers nonetheless ran "Warner Wins" headlines and the wealthy Virginia horse-country resident, a former Navy secretary, made a jubilant appearance at an early-morning rally with his wife, Elizabeth Taylor, at his side.

In Illinois, Republican John Porter has conceded the race for the

10th congressional district to Rep. Abner Mikva, D-IIL "It appears he won the election by 1,241 votes on the basis of our unofficial canvass," Mr. Porter said. Rep. Mikva, a four-term congressman who won a narrow victory two years ago,

claimed victory.
In Sioux Falls, S.D., Republican Leo Thorsness emerged with a nine-vote lead over Democrat Tom Daschle today as final ballots were counted. The edge was so narrow that no winner could be declared until an official statewide canvass is completed in about 10 days.

Sonoda Goes to Europe TOKYO, Nov. 9 (AP) — Foreign Minister Sunao Sonoda left last night for a five-day tour of Britain, Hungary and Czechoslovakia.

everyone and pay the dancers \$500,000 each. She didn't doubt be was good for the money."

David Boddie, another spokesman for the disco, said the \$2,365.30 Mr. Khan had spent on champagne and food — charged on an American Express credit card — was repaid by check Tuesday. Mr. Boddie said the club had cashed the check.

"As I understand he (Mr. Khan) just apparently does this periodically — gets these urges and goes on these binges," Mr. Boddie said. Officials at the Pakistani Embas-

sy in Washington confirmed that Mr. Khan was a businessman living in Washington.

"He's a private businessman and is neither an official of the Pakistani government nor related to any official," a spokesman said.

Other Pakistani sources said Mr. Khan carried two passports, one Pakistani and one British. One source said Mr. Khan was rich, but not that rich. Something must have happened to him to make him Mr. McNeil said he checked

Tuesday on the validity of Mr. Khan's bank account and was told the money was there. "When be (Khan) left the money," Mr. McNeil said, "the

only thing he asked was that it be ent wisely — that it be spent to do someone some good."

Director Calls for 10-Year Delay In Opening FBI Files to Public WASHINGTON, Nov. 9 - FBI Director William Webster, charging that convicts are taking advantage of the Freedom of Information Act, yesterday proposed a 10-year moratorium on dis-

closure of material from the agency's investigative files. He said the delay "would be to minimize the danger to informants whose identities might inadvertently be revealed. Mr. Webster's comments, his sharpest attack on the effects of the act, were made in a speech to the Advertising Club of Baltimore. A

text was made available bere. Under the Freedom of Information Act, U.S. agencies are required to give the public access to information gathered by them. The agencies are required to respond to requests within a specified time, but the large number of requests received bas caused many

deadlines to be missed. Mr. Webster said that in some cases, convicts playing a "let's identify the informants" game, file so they can get information that will help them identify FBI sources. While we are not aware of any harm coming to any of our informants by reason of buman error on our part, the possibility still exists — a very serious one," Mr. Webster said. He added that

prisoners account for 6 percent to 7 percent of the requests for information received by the FBI.

Mr. Webster said FBI agents have found that normally cooper tive sources are now reluctant to divulge derogatory information about anyone lest disclosure of their comments embarrass them or

embroil them in civil suits.

Food Expert Says Hunger Is On Rise Amid Plenty

ROME, Nov. 9 - Despite bumper harvests and growing grain stockpiles, hunger and malnutrition are on the increase, according to

There has been a deterioration in per-capita food production in most of the developing countries," he said in an interview, although he create a presidential commission on foresees more receptiveness by countries to reforming food-securi-

ty programs.

Mr. Williams succeeded John Hannah, another U.S. citizen, as head of the group. The council was created four years ago by the World Food Conference here as an "overview and catalytic agency," to use Mr. Williams words, in the world effort to eradicate hunger.

The contrast of hunger amid plenty is the result of complex problems, including development policies of the poor resistant fact. policies of the poor nations, foodaid policies of the rich nations and lack of coordination of the food security effort by international agencircles. Food does not always get where it is needed. Trying to do something nbout that is Mr. Wil-liams first task. He bopes to have

some answers in April. He has asked the regional devel-opment banks to hold meetings with agricultural experts in Asia. Africa and Latin America to try to find out what internal obstacles there are to improved food production. At the same time, be is asking the major aid-donating nations of the West, the oil-exporting nations, and the communist nations, including China, for clarifications of what they can contribute to a solution.

A score of experts will meet in Bellagio, Italy, in April to sort out the responses and draw up a blueprint of "mutually re-enforcing

Some of the reforms required are evident, according to Mr. Williams. Development policies of the poor nations need to strike a better balance between industry and agricul-ture. Few Third World nations have coherent food programs.

Kreisky's Party Offers A-Ban To Parliament

VIENNA, Nov. 9 (AP) — Three days after their referendum on the use of nuclear energy was narrowly defeated in nationwide balloting. the ruling Socialists have intro-duced in Parliament a law banning atomic power in Austria, in compli ance with the outcome of the referendum.

Party, which appeared to have nucicar longy with out making a firm commitment, said yesterday it would vote in favor of the "initiative" motion after clarification of some legal points. Legislation defeated in the re-

ferendum bad vote would have provided for putting a nuclear power plant into operation at Zwenten-dorf, 18 miles northwest of Vienna. Parliamentary floor leader Erwin Fischer said that the law banning

nuclear power may be passed be-fore the end of the year and was a logical consequence of the will expressed by the people. Chancellor Bruno Kreisky, who

emerged vested with wider powers from a meeting with party execu-tives late Monday, said he would invite the opposition to attend a meeting Nov. 20 on future energy

Callaghan Wins **Program Vote** For Final Year

LONDON, Nov. 9 (AP) — Prime Minister James Callaghan tonight won parliamentary hacking for his legislative program for the months remaining before he must renew his electoral mandate to govern.

The Labor government held off Conservative Party opposition on its economic policies by a vote of 312 to 300 with the help of Welsh and Nurthern Ireland narionalists. The three Welshmen voted for the

The three Welshmen voted for the administration and the Ulster nationalists abstained

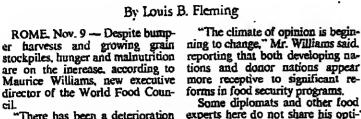

The chancellor of the exchequer Denis Healey, earlier said that in-flation dropped in the last year from about 16 percent to 7.8 per-cent in September. Unemployment also declined, from about 1.6 mil-lion lectured to 1.4 million in Seplion last year to 1.4 million in September.

Mr. Callaghan's government is the first in 14 years to enter the fifth and final year of its consultutional life. Governments in Britain are elected for five-year terms but prime ministers can call national elections anytime during that period, Mr. Callaghan must schedule an election by next October.

Mrs. Mandela Wins **Banning Case Ruling**

BLOEMFONTEIN, South Africa, Nov. 9 (Reuters) — Black activist Winnie Mandela was acquitted yesterday of breaking her govern-

ment banning order.
Mrs. Mandela, 43, wife of imprisoned nationalist leader Nelson Mandela, was accused of contravening the order by meeting a clerk from her lawyer's office. Under the order restricting her to the small town of Brandfort, north of here, Mrs. Mandela may only see her

mism, however.

President Carter's decision to world hunger could make an important contribution. But experts here are aware that appointment of the commission came only after al-most a year of fruitless efforts to piece together an agreement among the various departments and agen-cies of the U.S. government on world food security.

Furthermore, there is disappointment that differences among pro-ducer nations continue to block agreement on a world grains reserve, a priority of the World Food Conference four years ago. Delegates are back at work in Geneva with no indications of significant progress in bridging the major obstacles, including differences be-tween the United States and the Common Market.

"I am concerned about the delay in reaching agreement on food reserves and also the delay in draft-ing a new food-aid convention," Mr. Williams said. The present aid convention calls for 4 million tons of food. Aid is running at about 9 million tons a year, and the target proposed by the World Food Con-ference is 10 million tons, an amount that Mr. Williams says is

"The problem is that the good crops now create an adequate supply situation and some people relax, but as soon as there is a crop failure in a major production area, there will once again be the scram-ble and sid supplies will diminish," Mr. Williams said. We have to plan now to avoid a situation in which the rich eat while the poor go without.'

Some diplomats here are also concerned that the authority of the World Food Council may be di-minished by United Nations poli-tics. The decision of the UN Gener-al Assembly to bring the North-South issues, on economic relations between the poor and rich countries, before the so-called Committee of the Whole includes a plan to make food policy a major item of business early next year. Some donor nations are concerned that the politics of the new economic order, popular with many developing nations, could cause problems just at the time that the World Food Council is seeking a significant restructuring of the world food-security situation.

Mr. Williams is the first to admit The opposition Austrian People's that his only power is persuasion. "The council has no sanctions to

impose," he said. O Los Angeles Times

Possible Danger Of Cancer Seen From Beryllium

WASHINGTON, Nov. 9 (AP) — The U.S. Public Health Service said yesterday there is enough scientific evidence to conclude that beryllium, a metallic element, causes cancer in animals and possibly in

The agency recommended that the government limit workers' exposure to the metal.

The strong, ultralight metal is used in the aerospace and nuclear industries in the making of weapons, rocket motors, nuclear reactors and heat shields.

The Occupational Safety and Health Administration has an-nounced plans to cut in half the allowable worker exposure to beryl-

Industry officials have opposed the tighter standards, and Energy Secretary James Schlesinger has warned that such standards would be too expensive for manufacturers and thus might threaten national

American Artist Norman Rockwell, 84

tor" but was to millions of Americans the artist they knew best, died last night at his home in Stock-

bridge, Mass.
Mr. Rockwell's wife, Molly, said
he "had been ill a long time."

Those millions who saw his work small-town scenes and characters that mirrored America - knew him principally from the covers be did for the old Saturday Evening Post — 317 of them in all spanning more than 45 years. The first appeared in 1916, the last in 1963. The latter was a black-bordered portrait of President Kennedy used the month after his assassination, it had originally been painted during the 1960 presidential campaign as a companion piece to a portrait of the Republican nominee, Richard

A later picture of Mr. Nixon, done in 1969, hangs in the National Portrait Gallery here. He also painted Lyndon Johnson for the Post, a picture the late President said he liked better than the Peter Hurd portrait also in the gallery. President Eisenhower was another Rockwell subject for the Post.

But painting presidents was a deviation from Rockwell's usual genre. His subjects almost invariably were ordinary people in situaably were ordinary people in situa-tions immediately recognizable: al-grinning schoolboy with a black-eye sitting outside the principal's office: a Thanksgiving scene of an-old woman and a young boy saying-grace in a greasy spoon restaurant while truck drivers gawk; a World! War II paratrooper returning home-to a wildly happy reception of fam-ily and friends; and, of course, "Willie Gillis," the gangly small-town boy whom he took throught the war from the induction station!

to bomecoming.
His popular appeal was so strong, according to one former Post editor, that a Rockwell cover was good for the sale of 50,000 to 75,000 extra copies of the Post on newstands. He produced what n reviewer described as "what middleclass America believed was the way

"As I grew up and found that the world wasn't the perfectly pleasant took all the opportunities that came place I had thought it to be. I un-bis way, and he happened to be consciously decided to compen-around at a time when the cover of sate." he wrote. "So I painted only the Saturday Evening Post was an the ideal aspects of life — pictures index to popular feeling in which there were no drunken. This meant that the ride of life

WASHINGTON, Nov. 9 (WP) — kids. The people in my pictures aren't mentally ill or deformed. The on calling himself "a hack illustra-situation they get into are commonsituation they get into are common-place, everyday situations, not the agonizing crises and tangles of life."

Mr. Rockwell was illustrating the Boy Scout Hike Book hefore the Armory Show of 1913, which introduced this country to the new art of Europe, opened in New York.

His training was academic, and like the neo-classical sculptors of the 19th century Mr. Rockwell understood the muscles, bones and sinews that lie beneath the skin. The people in his pictures, like so many smiling statues, seem too good to be true, but Mr. Rockwell always gave them superbly painted props. In painting, as in other things, Americans appreciate precision, high technology, and Mr. Rockwell, like his predecessors. John Singleton Cooley in the 18th John Singleton Copley in the 18th century and Thomas Eakins in the 19th, detailed his paintings with ex-

traordinary care. He was a stickler for accuracy. Mr. Rockwell went to Hannibal Mo., and there bought up old clothes, before he dressed his models for his illustrations for Tom Sawyer and Huck Finn. Mr. Rockwell, who began working with the camera in the 1930s, was, in some ways, a precursor of the popular photo-realists who flourished

in the 1960s.

When Mr. Rockwell painted worn shoes, we knew how old they were. He liked to pose his actors

against well-painted backdrops to tackle the Saturday Evening, that, closing oil deep space, seem Post, the most prestigious market

could not portray women sensually. "I use to try," he said, "but when iron hand. Mr. Rockwell did not I'd finished, they all looked like see Mr. Lorimer, but the editor apfine wives and mothers." Toward proved two paintings for covers the end of his long career he let his works be peddled for high prices in bad reproductions, and his oncehigh standards dropped.

of Design where he and two other boys signed a vow, in blood, never to make more than \$50 a week and to strive for the highest in art. For most of his long life, Mr. Rockwell, by his own lights, did his best to keep the last half of that vow.

He continued to do some paintings in his latter years, but his outlets — the big, general circulation magazines — had disappeared. The last was Look, which folded in 1971, which he joined after the Saturday Evening Post turned to "so-phisticated muckraking."

American Boy. The only magazine with which he had a connection still publishing is the Boy Scouts of America's Boys Life where in 1912

Painter Touched Spirit Of the Nation in His Time Critics to lighte our when he started using the camera. "I've always been known as 'The Kid with the Camera Eyc." he said. Mr. Rockwell traveled extensively in Europe in the 1920s and 1930s and met ment and illustrated and illustrated

By John Russell

"I've always wanted to be an and that majority knew it at nuce artist," he once said. "I can't re- and said "thank you." member wanting to be anything

He also said, when he was a stu-dent, that he wanted to be a great illustrator. He worked very hard, be

slatterns or self-centered mothers, was running his way. Fifty years in which, on the contrary, foxy earlier, he would have been a neat grandpas played baseball with the and nimble draftsman — no worse

NEW YORK, Nov.9 (NYI) — and no better than many another. Norman Rockwell was lucky Today, he would be an amiable enough to live at a time when the anachronism. But in the heyday of demand for what be could do had the weekly magazines Mr. no limits. Furthermore, what he Rockwell spoke loud and clear for could do was what he wanted in do. a majority of the American people

> He was perfectly well aware of his good fortune, and he was not at all puffed about it. He never forgot how he had been on stage with Entico Caruso, when Caruso had been Radames in "Aida" and Mr. Rockwell had carried a spear by his side. Caruso had spotted Mr. Rockwell as an art student and made a point of being nice to him. And when be was summoned in 1952 to draw Eisenhower with only a 2½-hour nonce, Mr. Rockwell was as nervous as n beginner. He never got spoiled.

Middlebrow Audience

Undeniably he appealed to a middlebrow audience that knew nathing of art. He stood by that audience: "I cannot really convince myself," he once said, "that any painting is good unless it is popular." If people did not respond to one of his covers, he took it as a rebuke and worried for days on end as to where he had gone wrong. He knew that he ought to trust his own. judgment, but he didn't. This could have been his down-

fall, but when he was put to the test he came nut on the right side. When Roosevell defined the Four Freedoms in his annual message to Congress on Jan. 6, 1941, Mr. Rockwell knew that something fundamental was at stake, and he put that speech into images that would strike bome across the boundaries of language. When his designs were turned

down, as occasionally they were, be took it in almost too bumble a spir-it. When they went through to uni-versal acclaim, be himself some-times had second thoughts. I often caricature when I shouldn't," he would say. "I fail to see the people as real people. I oversimplify. I try to make them too cute."

All that was true, beyond a doubt. But it took a good man to admit it. Mr. Rockwell will not live in the history of art. But as a witness to a certain view of America, and of what America should be, he was the right man in the right place

somehow stage-set flat.

Mr. Rockwell had his flaws. He redoubtable George Horace Lorin the business but edited by the imer who ran the magazine with an iron hand. Mr. Rockwell did not proved two paintings for covers and three cover sketches, the begin-ning of n relationship with the magazine that lasted until the Post, in a. desperate battle to stay alive in the Before be was 15, Mr. Rockwell 1960s, changed its style and con-enrolled in the National Academy tent and no longer had a place for work such his.

During World War I, Mr. Rockwell enlisted in the Navy—after eating bananas and doughnuts and drinking water all one afternoon in the recruiting office so that he could make the minimum weight required. He was 5 feet 11 inches tall and weighed 115

The Navy intended to make uses of him as a painter of insignia on phisticated muckraking."

The list of other magazines for which he did covers and illustrations is a necropolis of periodicals: the old, old Life, Judge, Leslie's. Women's Home Companion, St. Nicholas, Youth's Companion, and American Boy. The only magazine was taking him and others overseas was turned back by a submarine alarm off New York and landed at alarm off New York and

A painstaking craftsman, Mr. Rockwell would spend many weeks and sometimes months in prohe got his first regular job — art director for \$50 a month.

By 1916, Mr. Rockwell felt ready

By 1922 America's Boys Lite where in 1912 during a painting. He used photographs during much of his career to catch the exact lighting and expressions be desired, but he challenged critics to figure out when he started

and met many artists and illustrators. He even tried his hand at "modernism" a couple of times. One such work he discarded without submitting it to the Post and the second — and last — was turned down by the conservative Mr. Lorimer.

Pact With Hanoi Bolsters Soviet Far East Position ()

By Drew Middleton

between the Soviet Union and Vietnam complicates an already delicate strategic situation in East Asia involving the Russians, the United States, China and North and South

The treaty was concluded as intelligence from the Far East reported a steady expansion of Soviet military power in that area.

The Soviet Pacific fleet, according to reports from London and Tokyo, will be reinforced by a 40,000-ton Kiev-class aircraft carrier. The Russian divisions in Siberia and the maritime province are being expanded. Stocks of fuel to support these divisions have been assembled.
U.S., Chinese and Japanese con-

cern about the treaty signed in Moscow last week focuses on the future of Camranh Bay, a large an-chorage on the coast of Vietnam supported by shore installations and built by the United States during the Vietnam war.

After the final victory of the North Victnamese in 1975, it be-came known that the Soviet Union had approached Vietnam about the Camranh Bay by Russia's

Pacifie fleet It is not known whether such use of Camranh Bay is part of the Moscow-Hanoi agreements. But Chinese and U.S. officials believe that the bay's use by the Russians would weaken their naval positions

in the area. Soviet forces operating out of the base would be on the flank of China's South Sea fleet, which is deployed from major bases at Whampoa, Chankiang and Yulin and covers the area from Tanshan

Russian naval units in that area would also be a counterweight to the U.S. sea and air forces based at Subie Bay and Clark Field in the Philippines across the South China

The treaty follows a steady expansion of Soviet support for Viet-nam. Moscow not only has sup-plied Vietnam with arms for its war with Cambodia, but has also accused the Chinese of "aggression" in northern Vietnam.

Sources in China indicate that most of the aircraft seized by Vietnam in 1975 are now inoperable because of a shortage of spare parts, but the Soviet Union has pledged to supply newer aircraft to Viet-

The program apparently has af-fected military planning in Wash-ington and in Asian capitals. For example, Pentagon officials say the withdrawal of U.S. ground and air forces from South Korea has slowed perceptibly.

New Policy Toward U.K., Allies

U.S. Approves Sale of Diesels to China

By Richard Burt

WASHINGTON, Nov. 9 (NYT)

— The United States has informed London that it has no objections to Britain's selling diesel engines to China for use in naval vessels.

new U.S. policy, referred to last week by Secretary of State Cyrus Vance, of not interfering with ef-forts by Britain and other allies to sell such equipment to China.
In a news conference on Friday,
Mr. Vance reiterated that the Unit-

The decision is said to reflect a

ed States would not supply arms to China, but that "insofar as other nations are concerned, this is a matter which each of them must decide for itself." The U.S. position is said to re-

flect a balancing act in which offi-cials are attempting to foster better ties with China while not antago-nizing the Soviet Union. Although the United States has apparently given a green light to its allies, offi-cials stress that President Carter is not encouraging such deals.

Britain may be the first country to take advantage of the U.S. position hy selling 4 to 12 marine en-gines for a new class of coast guard

Defense Department officials said a study of the potential impact of the sale had concluded that it would not pose a threat to the security of Taiwan. Britain also is interested in sell-

ing a vertical-takeoff fighter, the Harrier, and a Chinese military delegation is reported to have arrived in London for talks. Italy is also said to bave been in

touch with China concerning the possible sale of naval diesel

Although all these deals evidently have not been examined in detail by the Pentagon, officials said the United States was inclined to allow them without insisting that they be cleared by a coordinating committee of the Western alliance, known as Cocom, which consults on the sale of military-related technology to Communist countries.

The United States was reported last spring to be supporting some arms sales to Peking, but several

factors delayed the formulation firm policy guidelines. The mimportant was Soviet opposition the idea of Western arms sales support for military ties between Europe and China cot aggravate relations with Moscow China. U.S. officials feared W

the absence of the rightful duke, Vincentio, he closes down the brothels and imprisons Claudio on a charge of immoral conduct, which now merits the death penalty. He offers to release him if Isabella, Claudio's sister, will submit to him. She agrees, hus sends Mariana in her stead. Angelo does not detect the trickery — nor does he intend to keep his promise.

Vincentio, disguised as a monk, has observed the hypocrisy of the "reform" regime, and intervenes.

"reform" regime, and intervenes. He sentences Angelo to death, bin Isabella pleads for mercy, and when her brother is produced unharmed, the treacherous tyrant is generously pardoned and betrothed to Mariana, whom he has seduced

Superb Drama

The scene in which Isabella visits Claudio in his cell to tell him that her honor will only be spared by his execution, only to have him turn on her and beg for his life, is superb drama. Noted actors have undertaken Claudio's magnificent speech on the terrors bred by the thought, but the current Claudio fails to rise to the big moment's challenge, reading it in a manner that lets it

Brook's direction is assured, adroit and refreshingly unaffected. The play was written for the wooden O and can hold its own without fancy adornment. Brook places it on the bare performing space and has clad his players in what appear to be improvised rehearsal clothes.

A play by Shakespeare has oo need of lavish decor and ball finery. It calls for no resurrection men. What a director, aided by a capable company, can do is to impart it with theatrical existence. This, to an appreciable degree, has been accomplished. The text has sufficient strength to hold an audience and is intelligently given its head. There is no intermission and there is oo boredom.

Francois Marthourt's watchful duke is of the first chop, a thoughtful portrayal, well-balanced, well-spoken, well-acted. Maurice Benichou as the lascivious Lucio is an amusing scallywag and one regrets that there not more of Michele Collison's flamboyant Mistress Overdooe (rebaptized Madame Bienfareye io Jeao-Claude Carriere's serviceable adaptatioo). Brook maintains an international group and some players in its fold are linguistically ill-at-ease in delivery. Bruce Myers' Angelo utters his lines in the studied tomes of Bela Lugosi impersonating Dracula, an eccentricity that, however, properly colors the personality of the wicker double-dealer. On the lower level the clashing medley of accents suggests an indignation meeting at Ellis Island. Mireille Maalouf is a handsome Mariana, while Clementine Amouroux's Isabella hints of loan of Arc on trial.

Brook has devised a lively thement performances are scheduled ater evening from Shakespeare's brooding, bitter comedy. brooding, bitter comedy.

Orchestre de Paris Displays a New Consistency

By David Stevens

DARIS, Nov. 9 (IHT) - The Orchestre de Paris, which last year celebrated the 10th anniversary of its founding is currently — by another method of calculation — marking its 150th year at the center of Pari-

The solution to this apparent convindrum is that when the orchestra was founded in its present guise in 1967, it absorbed the Societe des Concerts du Conservatoire, the oldest es-tablished concert society in the capital.

rounded in 1828 by ministerial decree, its concerts were given by the best players of the opera and the conservatory, with the intention of championing new or neglected music. The first concert, conducted by Francois Habeneck, the music director of the opera, offered the Third, Fifth and Seventh supporting of the property decreased Reethon. symphonies of the recently deceased Beethoven — a pioneering act that would be hard to follow at any time.

In its present form, the orchestra has had a rough first decade. After one euphoric season uoder its patron saint, Charles Munch, it had several erratic years of prestigious but often absentee leadership from Herbert voo Karajan and Georg Solu. And the rejuvenation of the French Radio orchestras has given the Orchestre de Paris brisk competitioo oo its very doorstep.

Consistency

In any case, almost three years under the musical directorship of Daniel Barenboim have given the orchestra a consistency it did not have before, handsomely demonstrated

during a first month of the current season devoted almost entirely to the Austro-Ger-

man reperiory.

The strings do not have the richness for this repertory of those in Berlin or Vienna, and the orchestra does not have the extro-vert virtuosity of the best U.S. ensembles, but it has a homogeneous sound with a cen-ter of gravity in an outstanding group of wind players.

This was evident in the expressive and well-shaped performance of Mahler's Fifth Symphony, a bold season-opener even in this age of Mahler-mania, and in the Seventh of Bruckner, a composer the French have oever really taken to, and of whom Barenboim was perhaps a hit too hectic an advocate. Maurizio Pollini was the piano soloist in a lyrical and poetie Brahms Second Coocerto, as well as in a less convincing, rather hard-edged Beethoven Third.

rather hard-edged Beethoven Third.

The 10th anniversary of Munch's death, which occurred when the orchestra was making its first U.S. tour in 1968, was movingly commemorated with a Mozart Requiem in the church of St. Louis des Invalides. It was a singularly fitting tribute for Munch — that most French of conductors yet a musician of solid Teutonic training — exuberant and triumphant rather than mouraful, and with a splendid vocal quartet in Barbara Hendricks, Nadine Denize, Erie Tappy and Gwynne Howell. Tappy and Gwynne Howell. -

The main event in the second series of atelier concerts in the newly opened Espace

Karlheinz Stockhausen, "Michaels Reise um die Erde" (Michael's Trip Around the Earth), which found the German composer in unusually congenial and accessible form, although his program notes remained for-midably dense.

Stockhausen & Son

The work was nothing less than a show-piece for Stockhausen's son Markus, a handsome young man and an impressive trumper virtuoso. Stationed on a platform behind a battery of microphones and surrounded by the Ensemble InterContemporain, the coloist's aural round-the-world trip consisted of a series of dialogues with different in-strumental groups in the ensemble.

At one point, he descended from his platform for an engagingly flirtatious encounter with a basset-horn-playing young woman (Suzan Stephens), and occasionally a couple of clarinet-playing characters capered through the orchestral forest like a couple of

crotte fauna from 1920s German cabaret.
But simple as it may seem, "Michaels Reise" is only a small part of "Licht" (Light), a vast musical/dramatic work-inprogress through which Stockhausen intends "to give n oew sense to the seven days of the week." Indeed, "Michaels Reise" is only an extract of the music for one of them.

Thursday—a day he expects to complete Thursday — a day he expects to complete sometime in 1980. The composer says he is looking for an opera house to take charge of its staging. The very idea makes Wagner's Ring cycle seem like small bier.

Young Directors Declare **Brecht's Plays Are Passe**

BONN, Nov. 9 (UPI) — In Dan-ish exile in the 1930s, Bertolt Brecht, self-styled enfant terrible of German letters, wrote a poem entitled: "Why Should My Name Be

In West Germany today, that question carries a new meaning. Twenty-two years after Germany's most famous 20th-century play-wright died in East Berlin, young theater directors are asking: Why

should Brecht's plays be staged?
The Brecht controversy Placed anew recently in Frankfurt when 50 directors, playwrights and profes-sors from Europe and the United States assembled to discuss "Brecht at 80."

Young intellectuals made clear that they now find irrelevant the robust mixture of theatricals and political polemie that took Berlin by storm in the '20s and made Brecht the darling of world stages in the '50s. Then his work and his politics delighted progressive direc-tors and shocked audiences used to lighter more consequences. lighter, more conservative fare.

Today, say the directors in Frankfurt, Brecht is horing and old

good material," declared Harry Buckwitz, the Zurich director who as head of the Franklurt Theater in the '50s introduced Brecht to post-

war West German audiences Buckwitz ascribed Brecht's decline as doyen of the progressives to modern theater's forsaking poli-tics for the realm of the psyche. He said modern directors "ready-made" plays of the Brech-tian sort, preferring texts that explore the human consciousness and remain open to interpretation by individual directors.

"The playwright's theater has been deposed by the director's theater," Buckwitz concluded.

Young Munich director Ernst Wendt confirmed that view. He said contemporary directors here concentrate on two phenomena—the psyche, and the crisis of German identity in the light of German history. Brecht, Wendt said, is passe because he offers simplistically logical or Marxist solutions to problems now seen as more com-

"With Brecht," complained Hartmut Lange, a young Berlin author, "the antithesis is missing. There is only the moment of hat.

"For progressive theater directors, Brecht simply doesn't provide alectic that goes with it."

New York 715 guilders return. Washington 826 guilders return. Guaranteed seat. Daily from Amsterdam.

Nationals "inter-National" Fares. No lower fare to New York and Washingtonand no queueing.

You tell us when exactly you want to depart, (fare valid until June 14, 1979) pay when you make your reservations... and we will give you this low fare plus a reserved seat there and back. It's available on a substantial but limited number of seats, so make reservations early.

Should you change or cancel your trip, 130 guilders are

And remember, while "inter-National" may be a discount fare, you still enjoy all the advantages of flying with America's third largest trans-Atlantic airline. National's wide-cabin DC-10s leave Schipol every day at 10.00 am arriving in Kennedy at 12.00 noon. Coming home, we leave New York for Amsterdam every day

at 5.55 pm. Travel in America has never been so inexpensive.

Our "inter-National" fares offer an outstanding opportunity to visit friends and relatives in the US or to see America on holiday. Americans are happy to have you take advantage of their favourable currency exchange to come and see them. It's never been better value.

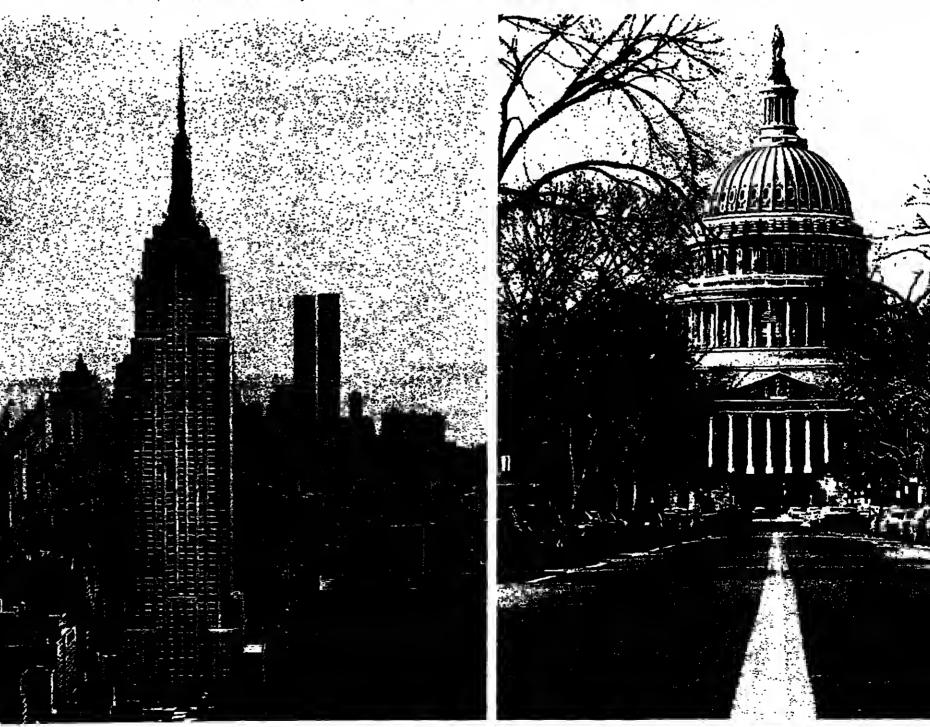

And a new era of reduced airfares within America has made even the furthest reaches of the US accessible at

budget prices. With winter coming think of the warm sun of Florida and California, or if you love winter, ski resorts in the American Rockies offer a deep, fluffy, light powder snow found nowhere else in the world. And, of course, it is all easily available with a quick change of planes at Kennedy. National "inter-National" fares.

They're what you've been waiting for - only now, you don't have to wait.

Contact your travel agent or National Airlines, Prins Hendrik Kade 48, Amsterdam (26-29-59), 81 Piccadilly, London W1V 9HF (01-629 8272), 101 Champs Elysées, Paris 8e (225 6475, 256 2577, 563 1766, 720 1562), Wiesenhüttenplatz 26, D-6000 Frankfurt Am Main 1, (23 04 41). Scattered Returns

Taken as a whole, the midterm elections could be either a boom or a disaster for pundits. It all depends on how inventive, not to say shameless, the individual pundit is in dealing with the kind of election returns that can be used to prove either everything or nothing on a national, hig trend, whither-thetwo-political-parties scale. We reached this conclusion the hard way: by trying to extract a few interstate truths and transcontinental theories from the returns (beyond the selfevident fact that an anti-tax politics is prominent in the land) and observing that none of our big ideas could survive scrutiny.

Try this one: that the voters, nationwide, were registering their fed-upness with things as they are and with the used-goods politicians who have been hanging around for years symbolizing the status quo. The tri-umph of Harry Hughes in Maryland, the upending of the whole Minnesota top Democratic leadership, the dumping of both con-servative Republican Gov. Meldrim Thomson and liberal Democratic Sen. Thomas McIntyre in New Hampshire, the defeat of Republican Sen. Edward Brooke in Massachusetts -- you can accumulate a lot of evidence for this conclusion. But what are you going to do with the continuing success of Sen. Strom Thurmond in South Carolina, or the ease with which voters returned to office two notorious congressional establishment stalwarts, the indicted Rep. Daniel Flood of Pennsylvania and the convicted Rep. Charles Diggs of Michigan? Yes, it's true that Republican veteran Sen. Charles Percy of Illinois nearly lost, but he pulled out of that noisy near-fatal dive - admittedly only some 15 feet above ground, but he did it. All wasn't asbes for the longtime "ins," and in fact, in the far West, the political climate seemed to favor incumbents.

Similarly, you can show it was a fine day for left-of-center Democrats or a mini-rout. In New Jersey, Bill Bradley prevailed over the articulate and tough conservative Jeffrey Bell, whereas, in Iowa, Dick Clark got beat hy the very-far-to-the-right Republican chal-lenger, Roger Jepsen. What all this strongly suggests in 1978 is what it almost always strongly suggests — that individual and even idiosyncratic political circumstances tend more than great whooshing national trends to determine who wins and wbo loses around the country in midterm election.

The Democratic debacle in Minnesota is a good example, because, among other things, it had been huilding for years and for reasons that predate by at least a decade the current political atmosphere. Minnesota Democratic politics is, in fact, the story of a success-ruined enterprise, a system that produced too many winners and too much victory and too much leadership. The leaders began to/compete among themselves; the winners closed down the channels to winning for younger and equally ambitious contenders; the victories bred, as they often do, complacency and, in the case of national victories, created leaders like Hubert Humphrey and Walter Mondale who were obliged to represent government policy and values to a constituency that was by its nature and history critical, independent, unaccustomed to accepting an establishment "line" - even its own.

The defeats of Sen. Robert Griffin in Michigan and Sen. Floyd Haskell in Colorado are additional examples of the kind of special-circumstance outcomes we have in mind, and the phenomenon could be multiplied many times over. Some really terrific people won — and lost. It's the American

THE WASHINGTON POST.

The Taxpayers' Grievances

The striking thing about the state tax referenda is the care and precision that the voters showed, in case after case, in answering these questions. There was no great wave of wrathful and vengeful attacks on government, whacking back tax rates and public budgets. Only one state, Idaho, followed the precedent of California's Proposition 13 in actually rolling back revenues. But in a dozen states, the majority of the voters seemed to be saying quite clearly that they very much wanted a limit on taxation. The returns show a sharp and explicit concern that taxes keep rising automatically, in a time when public responsibilities don't seem to be expanding.

The returns in Michigan made the point. Voters there were given two options. They defeated the proposal to cut back property taxes. But they adopted the one that would let state taxes rise only as fast as the personal income of Michigan's taxpayers, and let property taxes go up only as fast as the inflation rate. They were trying to set a limit, They didn't want to get into the quarrel over budget cuts and who was to be laid off whether it was to be teachers or policemen. But they had the feeling that taxes and budgets were going up mindlessly and pur-poselessly, at a time when school enrollments are declining and most states are running surpluses. They wanted to stop it.

What are the likely effects of these election returns on national politics over the coming two years? The next Congress is going to be full of people who were subjected by the constituents to something very much like a temperance meeting. They were required to stand up, confess their past fiscal lapses, and take a public oath of budgetary abstinence.

The first major U.S. politician to sense accurately the shift in voters' attitudes about money was, of course, President Carter. He began preaching the doctrine of limitation when he was running for the nomination. But he has found this no easier to achieve than his predecessors did. One reaction -a misguided and dangerous one -- is the movement in favor of a constitutional amendment requiring a balanced federal budget. Some 22 state legislatures have already passed resolutions calling for a constitutional convention, a classic example of the politics of frustration. It won't succeed, but it reinforces the message conveyed by the state tax referenda. The message is that it's a time for caution and consolidation. Inflation is baving peculiar and unintended effects on a very intricate tax system, and the message is that politicians cannot leave those effects to run their course uncorrected.

THE WASHINGTON POST.

International Opinion

Row Over Vichy Aide

An enormous row has broken out in France over the unasbamedly anti-Semitic interview which Louis Darquier de Pellepoix gave to L'Express last week. Mr. Darquier, now a political exile in Spain, was the high commissioner for Jews under the Vichy government and sent 75,721 of them from France to the death camps. He told L'Express that he had to rid France of these stateless foreigners of another race, who had been the source of all France's misfortunes. . .

The row which has followed the publication of his interview bas been thunderous and widespad and does the French a great deal of credit. . . That successive French governments should have failed even to ask for his extradition for 33 years passes com-

Iran: Power Behind Throne?

For better or for worse, the British and U.S. governments are widely believed in Iran

to he the effective power behind the throne. This image may be far from reality, but it lends special weight to anything they say about Iran.

Their error hitherto has been to give the impression that they were identified solely with the shah, even after the extent of his unpopularity had become apparent. It is not sensible to link Western interests with the success or failure of a particular form of regime. Nor is it sensible to give the impression — particularly in the present situation - that the shah is the man of the Western powers. This does not alter the fact that for the time being at least, the shah's role is crucial in re-establishing order.

If he succeeds, he will have to follow through by going much further in the direction of democracy than be has so far been able to do. In the process, he may have to acquiesce in a sharp curtailment of his own role. As of now, he is the only man with enough authority to establish a new and viable regime; but he has not much time to prove that he can do it.

practical proposition.

In addition to these mundane

other agencies.

WASHINGTON — The U.S. State Department is being rapidly shorn of its traditional responsibilities and obligations. Unless the trend is reversed, the department will eventually be reduced to a powerless anachronism. Though it will remain, in theory, the president's primary tool for conducting foreign affairs, it will have become in practice little more than a demoralized service office for state departments located in nearly every other government agency in Washington.

The only significant foreign-af-fairs reorganization so far attempt-

ed by the Carter administration was the removal of the cultural-ex-change program from the State De-partment and its subsequent place-ment in the International Commin-ment in the International Comminnication Agency (formerly the U.S. Information Agency). That agency was liberated, in turn, from the existing, somewhat tenuous, over-sight of the secretary of state. Apparently that was just the beginning of more serious efforts to reform the State Department out of exis-

New legislation likely to be proposed when Congress reconvenes in January would cut the international-assistance function from the State Department. This would be folly, since authority to give international aid is the single most im-portant tool of U.S. foreign policy toward developing nations.

Trade Centers

Legislation is being contemplated, moreover, to create autonomous Agriculture Department trade centers in foreign countries, And a bill co-sponsored by Sen. William V. Roth Jr., R-Del., and Sen. Abraham Ribicoff, D-Conn. would deprive the State Depart-ment of its commercial functions and lodge them in a proposed De-partment of Trade.

Meanwhile, the Justice Department is vying to take over some traditional responsibilities of the State Department. A few months ago Attorney General Griffin B. Bell persuaded President Carter that transferring visa-issuing authority to Justice from State would be a good idea, since Bell's depart. be a good idea, since Bell's depart-ment already had responsibility for aliens residing in the United States.

A measure proposing such a transfer is likely to be introduced in the next session of Congress.

The authority of our ambassadors also has been under attack. The Central Intelligence Agency last year managed to kill provisions in a Senate bill that would have strengthened our ambassadors' the oretical right to supervise other agencies' activities abroad.

Wishful Thinking

In fact, it was the more orthodox thinkers of the 18th century who saw the issue of war in its stark reality. "Want of a common judge with authority puts all men in a state of nature. wrote John Locke. Or as Michael Howard, the distinguished modern war historian summing up the contribution of Locke and Hobbes, Montesquier and Rousseau, Kant and Hegel, writes: "War is an inherent element in a system of sovereign states which lack any supreme and acknowledged arbiter: and the more genuinely these states by reason of their democratic structure embody indigenous and peculiar cultural values and perceptions, the less likely are they to sacrifice that element of sovereignty which carries with it the decision, if necessary, to use force to protect their interests."

and the United States are at each other's throats so much of the time is not only a function of their pro-foundly different ideologies, important though that is. It is inevita-ble in a world with only minimal international institutions that nations of this size, power and prestige should be in conflict with their **Evaluating the Vote**

Something Happener

BOSTON — As the returns came in, the radio and television commentators kept telling us that will give way to a far-right Republican. Gordon Humphrey.

Some other changes may be fa commentators kept telling us that this election had little significance. It left things "pretry much unchanged," said one, Another called it a nothing election."

That judgment is facile, and I think false. It is true that the elec-

tion did not greatly shift the balance between the parties; the Republicans picked up only three Sen-ate seats, a dozen in the House, a handful of governorships. But it does not follow that nothing much has changed. A great many people have changed — the people holding office. And in this country's poli-tics, person can matter as much as

party.

Consider a single result of the 1978 election: the defeat of Sen. Dick Clark, D-Iowa. Clark was not just one of a hundred senators, an obedient party man like the lobby fodder of parliamentary systems. He was an independent liberal whose hard work and open-mind-edness gave him influence among

Greatest Impact

Clark had his greatest impact as chairman of the Senate's African subcommittee. He believed that the United States should try to prevent violence and chaos in southern Africa by urging the white powers there — in Rhodesia, Nambia, eventually South Africa — toward majority rule. He gave important support in African policy to Presi-dent Carter and Andrew Young.

Accordingly, Clark's defeat is bound to have foreign-policy echoes It will increase the already considerable domestie difficulties for the administration on African questions. It may well encourage the white regimes of southern Africa in their resistence to Western policy. (But they will regret the defeat of Meldrim Thomson, the rightist governor of New Hampshire, who was bailed on a recent visit to South Africa as a true representative of U.S. opinion.)

Or consider how the results of

this election may affect what seems likely to be the great debate on Capitol Hill next year; the Senate debate on a strategic arms limita-tion agreement, if one is finally concluded with the Soviet Union. The administration has reckoned all along that it would have an uphill fight to get a two-thirds vote in the Senate for ratification of a SALT agreement. Now it may be even harder.

Replaced

Clark will be replaced by a figure of the right, Roger Jepsen, who is hardly a likely vote for SALT. In Colorado, Floyd Haskell lost his seat to conservative William Armstrong. Thomas J. McIntyre of New Hampshire, who took the great risk, in his conservative state, of voting for the Panama Canal treat-

vorable to a SALT treaty. Demo crats of unknown views on forcig policy, for example, will replace conservative Republican senator from Nebraska and Oklahoma, Bu the point is that the particula changes will matter, on SALT and

other questions.

The character of the Republica minority in Congress will also be affected. It has been movin toward the conservative side fc. years now, and the 1978 election r sults will intensify that trend.

VENICE, Nov. 9 (Reuters) Montefibre has put to unions plans to reduce production of acrylic fibres at its Porto Marghera plant, starting with a three-week closure over Christmas to ruo down stocks, union sources said. The firm has been reducing its labor force at the plant as a result of the fiber market crisis and an agreement with other European producers.

Meanwhile in London, the Brit-

Under the "long-term" agree-ment, the details of which Mr. Bur-guod declined to disclose. China will own the hotels and Intercontinental will share the operating profits. The project is scheduled for completon in late 1981 and was initiated to cope with the increasing influx of tourists. An estimated 100,000 foreigners will visit China

The pact followed Pan Am chair-man William Seawell's visit to Peking last month. Seawell has said he received "very posiove" re-sponse from Vice Premier Teng Hsiao-ping on Pan Am's proposal to build hotels in China. China's tourism business has been booming, but the naoon has been severeforced to discourage travellers' visa requests or to ask tourists to eut short their stay in certain areas.

Peking authorities reportedly mapped out a plan to build as many as 800 hotels around the country. The government also has opened two schools, in Shanghai and Hungchow, to train hotel service personnel.

Japan, China in Oil Deal

TOKYO, Nov. 9 (Renters) -The partly state-cootrolled Japan National Oil Corp. said it has reached an agreement to develop offshore oil resources in Pohai Bay, north China, jointly with the Chinese oil mining ministry, probably norm China, Jointy with the Chi-nese oil mining ministry, probably starting early next year. Details of the agreement, including financing, will be worked out with a Chinese mission which is expected to visit Japan next month, it said.

Japan next month, it said.

Separately, it was reported that China and Brazil have reached agreement on a major trade deal involving exports of crude oil from China to Brazil and imports by China of Brazilian iron ore, pig iron and steel products. Agreement was also reached for immediate shipments of pig iron, sugar and

shipments of pig iron, sugar and steel products to Chioa.

Under a five-year petroleum agreemeot, Brazil will import I milagreement, Brazil will import i marking the street of crude oil from China's Shengli field next year, or 20,000 barrels a day, and 1.5 million tons barrels a day, and 1.5 million tons barrels a day, and 1.5 million tons barrels a day. cy to foreign borrowers for some time, bankers here say.

While many commercial banks are trying to promote this vehicle, the long-term credit banks regard some of its varieties as unfair competition. Floating rates can call into petition. Floating rates can cut into the market for fixed-rate loans, which are the basic yen offerings of all the banks until oow. Financial authorities thus are not encourag-ing new syndications of this kind

used to belong mostly to the three long-term creditors, Industrial Bank of Japan, Long-Term Credit Bank and Nippon Credit Bank.

Kennecott Facing NEW YORK, Nov. 9 (NYT) -

A secret effort to negotiate a peace-ful settlement between Kennecott Copper Corp. and Curtiss-Wright

unchanged from a month earlier, official figures released today showed. At the end of October, the

pects the best year in its history, and the international telecommunications telecommunications operations segment. Partially offsetting these improvements are lower earnings from Rayonier operations, due to a strike at its northwest pulp mills, and weak worldwide markets for pulp. Also affecting profits are lower earnings from certain European operations in components and semiconductors and telecommunications manufactures.

turned in by the Sheraton Hotel network, which ex-

Toray Sees Sharp Rise in Profit

Toray Industries expects net profit in the year ending March 31 will rise to 7.5 billion yen (about \$40.1 million) from 947 million last year, on sales of 410 billion compared with 407.48 billion. The company attributed the sharp improvement to cost reductions achieved by cutting energy consumption and employees, lower raw material prices, and some improvement in sales prices as a result of the produc-tion-curtailing cartel begun by major Japanese tex-tile firms late last year.

CPC International Sees Higher Net

CPC International says it expects the increase in its 1978 earnings to exceed the 9-percent gain of last year. The company also said sales will exceed \$3 billion this year. U.S. sales of consumer products are expected to be about 10 percent ahead of last year. In 1979, CPC plans to increase capital expenditures to \$163 million from \$150 million this year, of which about 40 percent will be for U.S. projects.

Banks' Rankings Shift as Dollar Drops

The vast reshuffling of the inter-

national rankings also reflects fac-tors besides currency changes.

FINANCIAL NEWS AND NOTES

By Robert D. Hershey Jr.

LONDON, Nov.9 (NYT) - The sharp decline of the dollar bas knocked several U.S. banks from the top echelons of world hanking and has made it generally harder for U.S. bankers to compete for international business.

According to the Banker, a Brit-ish financial magazine, only three U.S. banks — Bank of America, Citibank and Chase Manhattan were ranked among the top 10 at the end of last year, in sharp con-trast to 1970, when there were sev-

What's more, this year's accelerated decline of the dollar bas made further inroads into U.S. domi-nance, although no formal tabulatioo bas been made. Credit Agricole, a French institution that specializes in credit to farmers, seems oow to have virtually tied Citibank for the No. 2 position and is closing in on the Bank of America as the biggest in the oon-Communist countries.

Four of the world's top 10 are

now French and two are West German. Britain, whose currency has depreciated much more than the dollar during the 1970's, is oo loog-er represented on the list.

We're feeling more competition in medium-term floancing from the West Germans and Japanese," said an official at one of the biggest New York banks.

A number of U.S. banks, moreover, have been bumping up against their internally set perceotage limits on loans to certain countries, reflecting the oeed to use more dollars to make loans. At the same time, German banks, for

Morgan Stanley Sued to Reveal Net on Olinkraft

NEW YORK, Nev. 9 (AP-DJ) — An Olinkraft shareholder filed suit in federal court bere to compel Morgan Stanley & Co. to account for any actual or potential profit oo its 149,200-share arbitrage holding of Olinkraft's stock of Olinkraft's stock.

In the suit, Kathryn Walton, de-scribed as a Connecticut resident and longtime holder of 1,000 OIinkraft shares, alleges that Morgan Stanley was guilty of a breach of duty earlier this year in acquiring the Olinkraft shares while in possession of certain Olinkraft internal

session of certain Olimkraft internal earnings projections (IHT, Oct. 27).

"The common law...prohibits one from profiting from a ... breach of duty," the suit says.
"Accordingly, Morgan Stanley must account for any profit which it has made or may make from its autobase of Olimbar's stock."

In addition to an accounting the suit, which is a derivative action filed in behalf of Olinkfraft, also asks the court to award legal costs and "such other further relief as may be just and proper." Miss Wal-ton says in the suit that she de-manded on Oct. 30 that Olinkraft's directors "commence proceedings against Morgan Stanley" but "was informed that the board wouldn't take any actioo" on her demand. Olinkraft also is named as a defendant in the suit.

Morgan Stanley said that it "be-lieves the suit to be without ment, and intends to defend itself vigor-ously against this suit."

U.K. Loan Rate **Lifted to 12.5%**

LONDON, Nov. 9 (AP-DJ) — The Bank of England said today that with the approval of the Chan-cellor of the Exchequer it has de-cided to raise the minimum lending rate to 12.5 percent from 10 per-

since June 8, when it was raised from 9 percent. It has been hoisted steadily since the government's budget announcement of April 11 when the MLR was raised to 7.5 percent from 6.5 percent.

It now stands at its highest level

since Jan. 21, 1977, when it was at

ing relative to their capital bases because of the appreciation of the performance, differences in natioo-

economie policies and mergers. Since last year's survey. Chase The impact, however, has oot Manhattan fell from fourth-largest been evenly spread. "It depends on your asset mix and what you are in the world to sixth, Manufacturers Hanover from 18th to 20th. trying to do in a particular market," said Courtenay Hawkins Conunental Illinois from 32d to 41st, Bankers Trust from 36th to Jr., European general manager for the Los Aogeles-based Security Pa-48th, First Chicago from 44th to 49th and Western Bancorp from cific National Bank here. He said the decline of the dollar bas had 45th to 50th. The world's top 10 banks in virtually "no effect" on its interna-tional business.

1970, listed with assets in billions dollars, were Bank of America 25.6; Citibank 23.1; Chase Manhattan 22.2: Barclays Bank 15.1; Manufacturers Hanover 12.0; Morgan Guaranty 11.4; Nacional Westminster 10.6; United California 10.6; Banca Nazionale del Lavoro

10.2; Chemical Bank 9.7. The latest ranking, with 1977 as-sets in billions of dellars, was Bank America 80.2; Citibank 75.6; Caisse Nationale de Credit Agri-cole 63.4; Deutsche Bank 58.3; Banque Nationale de Paris 52.7; Chase Manhattan 524; Credit Lyonnais 47.2; Societe Generale 47.0; Banco do Brasil 46.6 and Dresdner Bank 45.9.

Nervousness Puts End to Rally

Prices on NYSE Mixed; **Money Supply Increases**

Prices on the New York Stock Exchange finished mixed today as nervousness ahead of the weekly money supply figures erased earlier

After the close, the Federal Re-serve reported that the M-1 money supply rose \$2.1 billion for the latest reporting week. M-2 rose \$2.9 billion. For the latest four weeks, M-I averaged a 9-percent mie of gain from 13 weeks ago while M-2 averaged a 10.2-percent rate of increase in the statistical quarter.
The Fed also said marketable

U.S. government securities held by the Fed for foreign accounts rose \$953 million in the week to \$92.7 billion. The Dow Jones industrial aver-

age lost 3.64 points to 803.97 and advances led declines 880 to 550. Volume fell to 23.32 million shares from yesterday's 23.56 million. Johns-Manville and Olinkraft said that over 5.9 million Olinkraft common shares had been tendered under the offer of a Johns-Manville subsidiary to purchase up to 49 percent of Olinkralt's common — 4.4 million shares — at \$65 per share. Johns-Manville slipped is to

254. Olinkraft did not trade but it elosed yesterday at 61%. Prices on the Amnerican Stock Exchange rose, with the market-value index up 0.08 point to 142,07.

The Agriculture Department

U.S. Lifts Trigger Base WASHINGTON, Nov. 9 (AP-

DJ) — The Treasury Department has announced an increase of 7 percent in trigger-price bases and extras for the major steel mill prod-uets covered by the trigger-price mechanism. The new resulting prices will apply to shipments exported on or after Jan. 1 1979. The treasury said no other adjustments of cost components from the fourth quarter trigger prices were oeces-

Rockwell Lifts Dividend

PITTSBURGH, Nov. 9 (Reuters) - Rockwell loternational said today directors voted to raise the quarterly dividend to 60 cents from 55 cents a share, payable Dec. 11, record Nov. 21.

corn harvest again saying the crop is likely to total 6.89 billion bushels, a record. Last month, the agency forecast 6.82 billion bushels. Last year's crop of 6.37 billion hushels was the previous record. The higher corn harvest estimate is likely to increase pressure on Presideni Carter to order more com acrenge set aside from production in order to hold down oext year's crop and help keep farm prices from dropping. The president said in his televised news conference to-

Page 7

day that be will make a decision on this io the next few days. The department also forecast a record soybean crop, saying it is likely to rise to 1.81 billion bushels. up from a forecast of 1.79 billion bushels last month and 3 percent higher than the soybean crop last year which totaled 1.76 billion bushels.

The man with exceptional goals needs an exceptional bank.

What makes Trade Development Bank exceptional? To start with, there is our policy of concentrating on things we do unusually well. For example, trade and export financing, foreign ex-change and bank notes, money market transactions and precious metals.

Geographically, too, we work mainly in areas where we have something special to offer. This includes the U.S.A. (our U.S. affiliate, Republic National Bank of New York, is now one of America's 50 largest banks). It also includes a number of

countries which, frankly, many other banks lack the first-hand knowledge to tackle properly. What's more, we keep our back-

office systems running abreast of our business. You may not notice this directly, but it shows up in quicker decisions and fewer errors. Serving our clients well has

helped us grow uncommonly fast.
Today, we're big enough ro provide
most of the sophisticated facilities of
the international banking giants but lesn enough not to keep you waiting for decisions.

As part of the Trade Development Bank Holding Group, we're ready ro serve you in most of the world's financial centers.

TDB Holding Group: US\$ 4.8 billion in assets; US\$ 457.8 million in capital and loan funds employed, as of 30th June, 1978.

Key Group offices: Geneva. London, Paris, New York (Republic National Bank of New York). Other offices in Beirut, Bugota, Buenos Aires, Caraeas, Chiassu, Frankfurt, Luxenibourg, Mexico City. Muntevideu, Nassau, Panama City. Rio de Janeiro, São Paulo, Tokyo.

Trade Development Bank

Shown at left, head office of Republic National Bank of New York, U.S. subsidiary of the Trade Development Bank Holding Group. The 52nd largest bank in the United States, ranked by order of deposits, Republic is one of America's fastest growing financial institutions.

BOOKS

A LOVE IN SHADOW By John R. Boettiger. Norton. 279 pp. \$10.95.

Reviewed by Abigail McCarthy

her second husband, John Boetnger, had a long preparation for writing this book about his parent's courtship and marriage — a story of love in the shadow cast by the fame of Franklin Roosevelt, his mother's name. The writer, only 11 years old when his own father, John Boettiger, committed shicide, was long haunted by that act. His whole career — the teaching of family studies, the art of biography, and the psychology of the human life cycle — can surely be seen as a way of coming to deal with it and with his own history.

"Until very recently I lived with the experience of my father's death so powerfully marked in my consciousness that, in effect, there was no room for his life," he writes, going on to say that, "Until recently, when I at last felt free to turn my attention to that part of my history beyond the years of my own life, I knew virtually nothing of my father's family or his life before the years be was with us."

In many ways, Boettiger's rediscovery of his father's family and the traces of them and of his father in himself are the most interesting parts of this book — if it is read for the personal history it is. For years, he says, he had woven a fantasy about that family, a fantasy of warmth and solidarity, and he was delighted to find them much as he dreamed them.

Fresh Material

It is mevitable, however, that this book will be read for the additional information and the fresh material it offers about Franklin and Eleanor Roosevelt and their family. In large part this is Anna Roosevelt's story, a story her son tells us she did not feel competent to write ber-self. "Her lifelong difficulty and rencence in writing publicly of her parents and family, her constraining sense of responsibility to histor-ical truth, her anger with those within and without the family who played faster and looser with the facts. . . were well known to those close to her." She left notes, fragmentary and unpublished, of her experiences of her parents and her childhood. Her son speaks of her reflectiveness and her nooesty and, again, "of her interest in the subtleties and perplexing changes in personal relationships and individual human lives."

This is an Anna Roosevelt we have to accept on his word because it is difficult to believe, on the evidence of the writing and letters quoted in the book and of her actions throughout her life, that she ever fully understood the extent to which her attachment to her "hero father" dominated her deepest feel-ings. This may be what he means when he speaks of "the edges and limits of her vision." She certainly did give thought to her rivalry her mother and we learn, from her point of view, of their deepening relationship during her late adoles-cence and young womanhood. (Eleanor's joy in the happiness she believed her daughter had found with John Boettiger is touching.)

As a young woman, Anna Roosevelt, on hearing of the Lucy Mercer episode in her father's life, identified with her mother. This changed. When the story became public, her soo tells us, she was upset at the emphasis given it in the press and felt that it was exaggerated as an illicit romance. She started to write her own account which, as quoted, seems to have implied that whatever the relationship had once been, it had faded to an easy friendship. She welcomed Mrs. Rutherfurd (Lucy Mercer had married) and her daughter to the White House, she said, because the visits

JOHN R. BOETTIGER, only gave a few hours of relaxation "for child of Anna Roosevelt and a loved father and world leader in time of crises." She described Mrs. Rutherfurd as a "stately but warm

Letter of Condolence

and friendly person."

Boettiger includes in this book Mrs. Rutherfurd's letter to Anna after President Roosevelt's death, a letter which his mother "kept close by her for the rest of her life." In it she is assured that she meant more to her father than anyone else. "Perhaps no one other than Lucy could have confirmed the fatherlove she so treasured. first and to the end, and the depth of her loss. It is clear that the need for that af-firmation was the overriding occul of her life and that, at the height of a famous father's career when the eyes of the world were fixed upon him, this need and a desire to please him at any cost, made her insensitive to her mother's position. (The letter, incidentally, shows a canny perception of that need on all!"

It is possible that the insensitivity displayed toward her mother was felt by her husband, John, when they were with her president-father (and for the same reason) and triggered his latent depression. His letter to her explaining his reason for entering the service in World War II hints of this feeling. But on the surface, their story begins as a substitute wildly happy romance. They met in the fevered aimosphere of a president dential campaign: he was the star reporter for one of the country's most influential papers, the Chicago Tribune: she was the handsome daughter of the glamorous candidate. The love letters quoted in the book, although somewhat embarrassing to today's reader in choice of endearments, ring with excitement and sentiment.

ment and sentiment.

There were, of course, all the difficulties of a public romance. He standard felt that he had to leave a well-like loved job for which he seemed ideally suited, but seemed content and part allow successful enough as publisher of a West Coast paper. They lived well on the public stage for a time, include though they sometimes seemed to be consciously playing their parts (as a comment of the author's halfsister Eleanor suggests). The story is absorbing to anyone interested in the effects of public life on private lives.

Boettiger is to be congratulated on the maturity and perceptiveness that with which he has accomplished that what must have been a difficult task. Sometimes as a writer, however, he is betrayed by the jargon of this sciences. People are described as "isolative and depressive," and a serious and depressive, and a serious in his parents lives are as a live and accomplished. Boettiger is to be congratulated Events in his parents' lives are want labellaged with the terms of popular a psychology. But, on the whole, these are minor defects in a major achievement.

Abigail McCarthy is the outhor of "Private Faces/ Public Faces" and "Circles," a Washington novel.

For Pool Ban on **Breast Feeding**

NEW YORK, Nov. 9 (UPI) — Mrs. Barhara Damon of Mincola. Long Island, has filed a \$500,000 suit against the nearhy Village of Williston Park, charging her civil rights were violated when she was forced to stop breast feeding her haby at the Willistop Park community swimming pool.

For several weeks in the summer of 1977, Mrs. Damon said, she hreast-fed her months-old son Michaef at the pool. She said she al-ways covered herself with a towel while doing so, and had oot been aware of anyone complaining about it. But on July 21, 1977, su-pervisors at the pool asked her to stop; when she refused, they invali-

dated her \$85 season pass.

Mrs. Damon, 33, said two life-guards asked her to feed her baby in a restroom, but she refused because her two other children, then aged 3 and 5, were in the pool and she did not want to leave them alone. Community officials have 20 days to respond to the suit.

BRIDGE

By Alan Truscott

Some bridge hands are mysteries. A keen analyst, examining a full deal and given the result, may be quite unable to determine what could have happened, harring some accident or major stupidity. Take for example the diagramed deal. How could it possibly happen that South could fail in six spades? It appears that South has one heart loser, and cannot possibly lose an-Other trick.

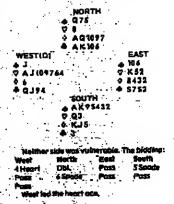

West opened four hearts, showing a very long suit. North doubled for take-out and accepted his partner's slam invitation, reaching the right contract of six spades.
When West led the heart ace, he

immediately realized that there was no hope of making two heart tricks, and no prospects in the other suits. So he made the strange play of dropping the heart king under the ace, hoping to confuse the issue.

He succeeded hrilliantly, for South now had to worry about the possibility that West had begun with a nine-card heart suit. So

when West continued hearts he ruffed with the spade queen in dummy. He was surprised to see East produce a heart, and oow had

something else to worry about. How were the trumps divided? South decided that East's strange play of the heart king was based on a potential trick in trumps, for East was clearly trying to induce the rulf with the spade queen. So declarer thought he could conoter effectively by playing East for all the miss-ing trumps. He ran the spade seven. with some trepidation, and was very embarrassed when West, overcome with surprise, produced the jack. East sat and smiled.

Orr Ends NHL Comeback

NEW YORK. Nov. 9 (NYT) -Bobby Orr, the defenseman who changed the face of bockey and whose rushing style is imitated by youngsters wherever the game is played aborted another comeback attempt yesterday and retired at the age of 30. He had tried to return with the

Chicago Black Hawks after sitting out almost two years following the sixth operation on his left knee. But he saw action in only six of the Hawks' 11 National Hockey

League starts.

"He knew before the season that he might be only 35 percent," said his lawyer and the head of the NHL Players Association, Alan Eagleson. "But he wasn't ready for the reality of being only a 35-percent effective Bobby Orr."

The 100-percent Bobby Orr led the league in scoring price (the percent)

the league in scoring twice (the only

sons (the only player so bonored), holds the record for highest scoring average in a career, the league mark for most assists in a season, the record for most goals by a defenseman. His statistics are a quantum leap ahead of anyone eise's. He scored 224 goals since joining Boston in the 1966-67 season.

Yet the Bostoo Bruins let him go after the 1975-76 season, unwilling to meet his salary demands, when he appeared in only 10 games after injuring his surgical knee again. So he joined Chicago in 1976-77 for \$600.000 a year with this provisioo: Even if he didn't play one game for the Hawks, he would get the \$1.8 million over three years.

Checks Uncashed

Hc appeared in 20 games that first season and his knee went out again. So Orr retired, becoming a

valuable player three straight sea-campaign. Last season he did not sons (the only player so bonored). play at all and became assistant

coach to Bob Pulford.

However, Orr has refused to cash
a paycheck since joining the
Hawks. He maintained that he did ooi want to cash a check until he could help the team.

Last week he had believed he had reached that poiot. He told the Hawks he would renegotiate the contract. He believed he was starting to produce. He had played in six games and produced two goals and two assists. But then he stopped appearing and became de-spondent over the coodition of his knee, which had to he bathed in ice

to lend advice and support,

ABC television still expects 50 million persons to watch the primetime show, which is all the Holmes-

Evangelista match is, a showcase for the man conceded to be the best beavyweight in the world. No bets are being taken on Holmes in this gambling town, but Evangelista is being offered at 4-1. The cootest is a show, competing with the likes of Frank Sinatra, Tony Bennett and Jethro Tull. But even Holmes can

try to sell it.
"Hell, this man don't even speak three-setters yesterday.

Tanner, seeded seventh, dropped two match points in the second set before overcoming Douglas Palm "The thiog for Larry to do oow," said Giachetti, "is show that he's a true champion."

The only way Holmes can do linearyan-born English," said Holmes, the closest

Larry Holmes prepares to unleash a jab at his sparring partner as he works out for title defense against Alfredo Evangelista.

undisputed champion, Ali. in May raise \$1.5 million for the ailing Joe Louis. Holmes brushed aside the of last year.

Holmes is sensitive to his tentous claim on the title be shares with Ali, who bas World Boxing Association recognition as champion. The dichotomy was created when the WBC stripped Leoo Spinks of the title for not agreeing to meet the No.-I contcoder, Ken Norton, after beating Ali in February, and awarded the crown to Norton. Holmes beat Norton at Caesars Palace on June 9 and then Ali regaioed the WBA share from Spinks

oo Sept. 15.

Ali will be present tonight at a

Ali. before regaining the title
\$500-a-plate dinner expected to from Spioks, said that he planned

challenge for center stage and said that he was worried only about Evangelista. "I'm worried about any guy that

comes into the ring who's not oo crutches," Holmes explained. Few boxing people expect Ali to rew boxing people expect All to fight again, except possibly against Mike Rossman, the WBA lightheavyweight champion. "I know he woo't fight me," said Holmes, for four years an Ali sparring partner. "He knows I'll knock him out."

Promoters Spar Before WBC Title Bout to hold the title he woo for a record third time "six to eight months and then retire." His retirement would clear the stage completely for the undefeated Holmes, who already is worried about finding worthy con-

tenders.

Evangelista apparently is so worthy a contender that Kiog interjected his usual diatribe against Bob Arum, his rival promoter, at yesterday's news conference attended by all the main eventers on the card. The card includes Alexis Arguello defending his WBC junior light-weight title against Arturo Leon of Mexico and Nortoo meeting unranked Randy Stephens in a 10-

King called Arum the "Hitler of boxing," a "madman," "the master of evil forces" who, "riding the tidal wave of paranoia on the brink of insanity," perpetrated a "weird tale of horror" in trying to sabotage the Holmes-Evangelista match.
"I want to go on the record say-ing there's no present ford he

ing there's no personal feud be-tween me and Arum," King added. This is just a matter of business."

Clean Bill of Health

King accused Arum of calling ABC and several reporters and "spreading innuendoes" that Evan-"spreading imutendoes" that evan-gelists was injured. A spokesman for the network said Arum called ABC Sports last Friday "as a friend" to say he had heard that Evangelista was seriously ill and that doctors were examining him. lo fact. Evangelista was examined that day at Desert Springs Hospital under orders from the Nevada Athletic Commission, which bad received a call last Thursday that something was wrong with Evan-gelista. A team of doctors gave Evangelista a complete bill of health. Arum was in Buenos Aires

and unavailable for comment. Irving Rudd, a spokesman for Arum, said by telephone from New York that he knew nothing of King's allegations, "But let me say this about King, for whom I worked nine mooths," he said. "He's the Idi Amin of boxing."

A Misspent Youth

By Russell Baker

tables. It was a waste of time. The pocket calculator came along. A skill I had spent several years learnsome of the sweetest years of my childhood.

As a youth, I learned to do an exceptionally fine slow roll in a propeller airplane. It was a waste of time. The jet airplane came along. It carried 400 persons who wanted In see movies instead of doing slow rolls. A skill of which I was extremely proud

Baker was obsolete. I had wasted two years of my youth.

During a bout of unemployment. I rented a typewriter and learned tn

type, It was a waste of time. The computer terminal came along. You had to know how to get words nut of a television screen. People who knew how to type were obso-lete. I had wasted years of my life training my left little finger to locate "q" on a keyboard.

Through many years of struggle, I learned to speak English. It was a waste of time. Grunting came along and in Washington, mumbling Another skill had become

pointless. Reviewing a wasted past, I feel like my automobile. Under the theory of built-in obsolescence, this poor machine began in deterinrate by dropping its windshield-wiper knob to the floor the day I made classic like the Stutz or the Reo.

the final payment on it.

Now nine years old, speckled with rust, clanking and creaking. dropping parts, leaking rain through the windshield, it is the wrong size, the wrong shape and the wrong style. The jokes people make about it are cruelly contemp-tuous. It is a terrible thing to be obsolete, whether you are a car or a person, yet the constant change with which we all live creates builtin obsolescence among people just as Detroit creates it in cars.

Most people are probably aware, subconsciously, of the perils of ob-solescence and many people seem to spend great amounts of energy

NEW YORK — As a child, I and money in a struggle to defeat them mustered the multiplication them. And with good reason. Who wants to wake up some morning and find that he's being traded in for a new model because his ing was obsolete. I had wasted windshield wipers are out of style nr because he still does multiplication problems in his head?

This is the fear that sends so many of the most celebrated people crushing into this season's disco parlor and joining the mob scene at this year's vacation resort. It is ominous to be heard discussing last year's book when everybody else has moved on to this year's book. to be the only person in the crowd who missed both "Jaws" and "Star Wars," to be heard speaking English in Washington when everybody else is mumbling, to pull up to the Beverly Hills Hotel in a 1969 Buick speckled with rust when everybody else is driving a Mercedes-Benz.

The gossip branch of the publishing industry is booming just now by satisfying a popular appetite for information about this year's people - what they are wearing, eating and dancing, where they are going, what they are playing and whom they are marrying, divorcing, shoot-

Periodically the gossip industry declares that this person or that has not undergone a style change since it came on the market two or three years ago and is now obsolete, or "out," to use the word that stalks the nightmares of every season's

most successful new people.

Long life among the fanciest new people is a rarity. They become obsolete nearly as fast as new cars. thousands are sbuffled off annually to the used-people lots and rust

The question is whether it is wiser to avoid skills that are doomed to obsolescence. To be known as someone who can do a slow roll in a propeller airplane is to be marked as helplessly out of date. To be heard speaking English instead of grunting is to be exposed as quaint — an Essex in a parking

lot filled with Mascratis. I meant to end here with a trenchant remark, but my windshield wiper has just fallen off and f can't see where I was beaded. To the junkyard, probably.

The Dutch are putting their chips on a casino in Scheveningen's Kurhaus.

Dutch Roulette: Scheveningen Casino

By Gary Yerkey

CCHEVENINGEN, The Netherlands OCHEVENINGEN, the Neutenlands (IHT)—Until recently, gambling occupied no abnormally large place in the spectrum of buman activity. It was merely a necessity—like eating and sleeping—practiced unswervingly in every society from the most primitive to the most complex.

The Egyptians did it: Note the dice found in a 5,000-year-old tomb. So did the Greeks witness the gaming board cut into a step at the Acropolis in Athens. Even Joshua found it useful, casting lots before the Lord IJosh. 18:10).

The rise of rationalism brought with it no decrease in gambling, "Though in higher cultures," writes a gambling expert, "the emotional response has not been so marked, the impulse to risk has been no less."

Last year, before the opening this spring of the Resorts International casino in Atlantic City, N.J., U.S. consumers annually bet as much as they spent on clothing or furniture or medical care — \$15 billion legally, plus an estimated \$75 billion to \$100 billion outside the law.

Dutch Chips

Now the Dutch, slow learners in matters of sin, have tossed their chips on to the gambling table. In October, 1976, they opened their first "official" casino, in Zandvoort; seven months later, another opened in Valkenburg; and next spring, the doors will swing wide at northern Europe's largest casino, located in the Scheveningen Kurhaus. And others are planned.

For two centuries, Europe has known gaming bouses, most of them in France and Germany. The invention of roulette by the French in the late 18th century spurred an interest in increasing the number of casinos. But it wasn't until about 1930, in times of economic trouble, that the great break-

through occurred, with the construction of many gaming halls in Italy, Belgium, France and Germany.

The Netherlands will still be low land on the casino totem pole. France is tops with 146, which do an annual business of about \$89 million despite an old French blue law that prohibits roulette within 100 kilometers

Britain ranks second with 125 casinos (95,000 people work in the British gambling industry — half the number employed by the national railway). Germany has 21 gam-ing houses, whose annual handle is about \$4 billion; Austria bas nine casinos, Belgium

eight and Italy four. Then there is the Casino de Mante Cario. built in 1861 and run today by the Societe des Bains de Mer, in which the government of Prince Rainer has a 65 percent interest. The company's yearly haul is between \$30 and \$40 million, 10 percent of it going to the

30 Tables

. The Kurhaus casino in Scheveningen will have 22 roulette and eight blackjack tables, says R. M. Bergmans of the Netherlands National Foundation of Casino Games. He hazards no estimate of how many customers may eventually try their luck there, although some idea can be inferred from the 1,000 daily gamblers that have hit Zandvoort's tables (II roulette and five blackjack) since that facility opened two years ago.

The conversion of the Kurhaus into a casioo is part of an extensive renovation project designed to make Scheveningen once again an international recreation center," as A.P. Nieudorp of The Haguecheveningen Tourist Office puts it. The project was begun in 1974 and adds up to about \$250 million in private investment alone.

It will involve the construction by 1985 of

three shopping centers, a botel, 60 shops, recreaconal facilities (50 restaurants, bars and nightclubs, four movie theaters, eight squash courts, a bowling alley and a swimming pool) and several apartment and office complexes - all on 30 scres.

But the casino will be the center of atten-tion. Its home, the Kurhaus, with its stately silhouette, was built in 1887, when Scheveningen became one of internacional society's hot spots.

Fading Attraction

By 1962, however, there had appeared a new generation of holidaymakers — sun worshippers, whose idea of a good time was to head south, leaving the indoor life of the north to fade away like a summer tan. In 1972, the Kurhaus was closed and its inventory auctioned off.

its ownership had the opportunity to sell its Scheveningen holdings — but only if the Kurhaus were demolished. The Dutch public protested, however, and in 1973 the government declared the Kurhaus "a protected monument." With private seed money, the Kurhaus is being renovated and expanded. The complex and its surrounding attractions will employ an estimated 5,000 people, and is expected to draw three million visitors a year by 1981, says Nieudorp.

It is not surprising, then, that the Dutch government has seen fit to allocate, according to Nieudorp, "extensive subsidies" for the project. The Netherlands is thereby following the lead of many governments around the world that have discovered the revenue-attracting wonders of legalized gambling.

The Dutch rush to match other countries' antes in casino construction seems anything but a gamble.

EXCLUSIVE OFFERING

Re-elected Gov. Carey On Trail to the Altar?

It was a bit more than a victory speech: It came within an ace of being a proposal. New York's newly re-elected Gov. Hugh Carey told his cheering campaign workers, "I know you've been waiting for me to make a personal announcement for some time." He then said he's embarking on a new campaign that he hopes "will not be as long and as hard and as difficult as the last campaign. I can't tell you what the result will be, but it will be a good one." Beaming at his side was 35-year-old Anne Ford Uzielli, daugh-ter of automaker Henry Ford II and widower Corey's constant companion for months. But she wasn't saying if her smile was for his victory at the polls or something more per-

To inaugurate a 460-mile "relay

for international brotherhood" between New York and Youngstown, Ohio, Andrew Young, the U.S. representative to the United Nations, sprinted across First Avenue from his office to the front of the UN building. In a ceremony there Young told a group of youthful re-lay runners that the history of diplomacy includes many chapters in which sports competition was a facwhich sports competition was a factor. In this connection he mennoned the Olympics, ping pongbasketball and running. Then
Young lit a torch to start the rally,
and the participants were off and
running. That man in the red
workout suit wbo's been jogging
around the White House grounds
lately is none other than President
Carter. And the woman trailing him on a bike? That's Rosalynn.Dr. William Lukash, the White House physician, said that Carter, who was a cross-country runner when be attended the Naval Academy at Annapolis in the 1940s, has rejoined the nation's jogging set. Lukash said Carter began jogging when be was governor, but quit at the start of his strenuous campaign for the presidency. Now he dons his red suit two or three times a week for a twilight trot around the south portico drive.

Golf fans can breathe easy. It seems their hero didn't have such a close call after all. Reports out of Sydney said that Jack Nicklans nearly drowned when a luxury yacht in which he and Australian oewspaper magnate Kerry Packer were sailing ran onto a coral reef in a violent storm. But Pat Wheatley,

Packer's secretary, says neither man was aboard - that Packer was ashore at the time, waiting for Nicklaus to arrive in a private jet from the Philippines, where he'd been playing golf with Presiden Ferdinand Marcos. Nicklaus, down under to compete in next week: Australian Open, is evidently stil as dry as a sand trap.

Dan Haggerty, who plays TV "Grizzly Adams," needed no ursing assistance in the mauling of two California Highway Patrolmen, but the action landed him in the slammer. The officers say they halt ed Adams' Ferrari which was doin about 100 mph on a freeway near Los Angeles before dawn. Whe Haggerty reached for his wallet in belt pouch, they spotted white pouch appeared to be a vial of white position of the position o der, but when they tried to grab the pouch Haggerty heaved it into the underbrush and a brawl erupter Haggerty was subdued, handcuffe and arrested on charges of drunke driving and battery on peace off cers. Patrolmen Richard Fletch and Barry Aricza are bearing up de
